PORTFOLIO
lgr-design.vercel.app

FOCUS

Front-End, Web Design, and UI/UX for landing pages, institutional sites, internal systems, responsive interfaces, motion, and AI applied to the production workflow.

SKILLS

LANGUAGES

English	Fluent
German	Basic, studying

RECOGNITION

- 1st place — Landing Page Arena (FIAP Next)
- 3rd place — WebDesign ATS Challenge
- Projects presented at FIAP Next — ARCA São Paulo

EDGE

Hybrid profile across UI/UX, Front-End, Motion, and applied AI. Custom Cursor IDE workflow to accelerate components, responsive layouts, code structure, and documentation — with human control over design, UX, and architecture.

UX/UI · PRODUCT · WEB

Lucas Gabriel Rodrigues

Front-End Developer · Web Designer · UI/UX Designer

Web Design / UI & UX graduate from FIAP, focused on digital interfaces, landing pages, institutional sites, web systems, and interactive visual experiences. Combines visual craft, product thinking, and technical execution to turn processes and ideas into clear, functional, well-presented digital solutions.

EXPERIENCE & PROJECTS

SaaS Developer CURRENT · IN DEVELOPMENT

- CTLI / MetroEX — Operational & quality web system
- SaaS to digitize metrology, quality, and records-management processes.
 - Modules: clients/environments, instruments, quotes, purchases, and standardized PDFs.
 - Product logic, data, responsiveness, and AI to speed flows and implementation.

Web Designer & Motion FREELANCE

- LGR Design — Authored & client projects
- Responsive pages, commercial layouts, micro-interactions, motion, and digital assets.
 - Visual hierarchy, clarity, and conversion for LPs and institutional sites.

Product Design & Front-End FIAP ENTERPRISE / FIAP NEXT

- Hirely / RecrutAI — Intelligent recruiting ATS
- UX, flows, navigation architecture, and development with React, APIs, and AI.
 - Concept presented at ARCA (FIAP Next).

UX / Interface FIAP / CONCENTRIX / FIAP NEXT

- Muvz / Movz — Gamified education
- Gamified learning interface and experience, with research, assets, and navigation.

EDUCATION

Web Design / UI & UX FIAP Expected completion Mar/2026 · Projects at FIAP Next (ARCA SP)	AI Tools, Agents & Cursor Adapta In progress
UX Designer Journey Interaction Design Foundation (IxDF) In progress	JS, Figma, Web Analytics FIAP / Alura

OWN PRODUCT

Founder & Developer IN PROGRESS

- DevSistem — System acceleration SaaS
- Own SaaS to speed up system development with a fully customizable standard and a Drag & Drop visual builder for fast client demos.
 - Already covers Security, Architecture, Flow, and building systems from “blocks”, while staying fully customizable.
